

Approved Workman Database

a recordkeeping system for Awana* clubs

*Awana is a Registered Trademark of Awana Clubs International

This software reduces the recordkeeping burden on club secretaries and frees leaders from tedious paperwork so they can invest more of their valuable time in ministry to the children.

With AWdb you can:

- Easily transition from inefficient paper-based recordkeeping to a powerful database
- Perform tasks vital to club administration more accurately and in much less time
- View, analyze, and work with your data in ways that would be nearly impossible with paper records

To learn more and to download a **free evaluation** copy, go to www.ApprovedWorkman.com

Price: \$199 for the first license, and \$50 for each additional license. Purchase price includes email and telephone support and all updates through July 1st.

Key Features:

- A user-friendly and intuitive interface gives you a high-level view of your club's data and lets you drill-down quickly to the details
- Powerful grids with sorting, filtering, grouping, printing and exporting capabilities
- A wide variety of formal reports that may be previewed, printed, or exported to external file formats such as: Excel, RTF, HTML, and PDF
- A household relationship structure makes it easy for you to see and work with all persons in a household. No more redundant data-entry!
- A customizable Registration Form pre-filled with data on all members of each household
- A check-in screen that makes it easy to update weekly check-in and progress information with all points and awards being calculated automatically
- Inventory tracking system integrated with automatic awards generation and ordering
- New Year Setup feature that gets you ready for the next club year in just minutes
- Multi-user functionality over a network, or via the Check-out/Check-in module that allows users to use separate non-networked PCs and have their data imported back into the Primary database
- Can be run directly from a USB flash drive for maximum portability
